Subject: Microsoft Settlement comment from Ohio

Ms. Renata B. Hesse:

I wish to raise my objection to the proposed anti-trust settlement between Microsoft and the U.S. Department of Justice.

The remedy only benefits a limited group, K-12 and after five years will further enhance Microsoft monopolistic position. I agree Mr Steven Jobs suggestion, give the schools the money, suggest \$10 billion instead of \$1 billion in cash and let the schools decide what they want.

I wish to nominate Mr Steve Satchell for the three-member committee which will enforce the anti-trust remedy.

Regards,

Dan
